

ZODIAC

ZODIAC, MASTERING THE ELEMENTS.

Renowned worldwide for the quality and reliability of its products in the aeronautical and marine sectors, Zodiac has now brought its expertise to swimming pools, to bring you a full range of pools, automatic pool cleaners, water treatment systems, heating systems and dehumidification units for swimming pools.

Backed by Baracuda technology, expertise and experience, Zodiac brings you the reassurance of top quality equipment in terms of both design and performance.

A real guarantee of efficiency and peace of mind!

ZODIAC

G4

Automatic suction cleaner

An automatic
pool cleaner
adapted
to the most
complex pools.

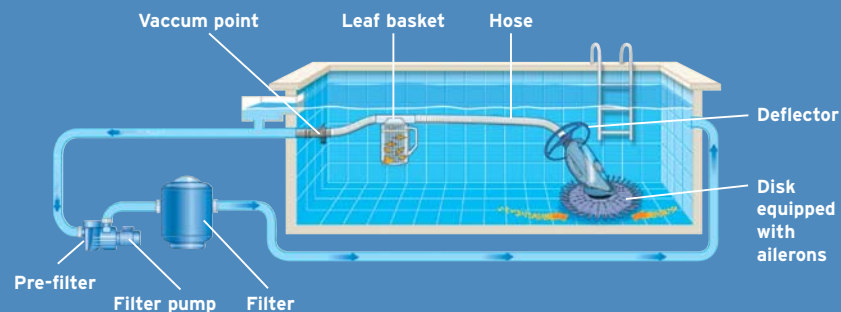

G4 An automatic pool cleaner adapted to the most complex pools.

► G4 : FOR USE WITH WHAT TYPES OF POOL?

POOL	In-ground pools.	
SHAPE	Rectangular, oval, custom made.	  
BOTTOM	Floor incorporating a diving area, composite slopes or diamond-shaped diving area.	 
SURFACE	All types of surfaces (tiled, liner, polyester skin, reinforced PVC, painted concrete).	

► G4 : ITS FUNCTIONING.

G4 uses a filtration system as a source of energy. Easy to install, it connects to the skimmer or the suction point without any need for additional equipment. The power from the pool's pump enables it to move around automatically and at random, to suck up debris, which is then stored in the pump basket and filter.

DIAPHRAGM
ORIGINAL BY ZODIAC

The "Diaphragm", exclusive technology by Zodiac, moves a step further for the very best cleaning results.

By inventing the **Diaphragm**, the motor component of hydraulic-suction pool cleaners, Zodiac revolutionised the swimming pool industry. This system is the result of exclusive expertise and know-how, and confers unique features to automatic pool cleaners: high-speed mobility, exceptional suction capacity for all types of debris, highly efficient even with low output pumps used in smaller pools, and super-silent operation.

But this technological gem has more to offer... Today, Zodiac improves the system and creates the "**Long-Life Diaphragm**", offering enhanced reliability thanks to the use of highly durable materials. Who else other than Zodiac, the pioneer of this technology, could go to such lengths to ensure maximum comfort for swimming pools?

G4

Automatic suction cleaner

SIMPLICITY OF USE

- Fast and easy installation in your pool.
- Automatic adaptation to the filtration rate of your pool.

MAXIMUM LIFE

- New generation Long Life Diaphragm technology.
- High resistance hoses.

EXPERTISE AND PERFORMANCE

- Carefully studied balance, designed to ensure perfect adherence to the pool bottom and walls.
- Anti-blocking system based on a deflector wheel.
- Cleaning of pool walls and bottom.
- An articulation situated at the base of the hose ensures greater mobility, required to clean pools with complex shapes.

ACCESSORIES TO MAKE YOUR LIFE EASIER

- A leaf basket to capture the leaves sucked in, before they reach the pump basket.
- A winter hose storage bag, to protect durably the hose sections.

◀ DESIGNED TO ENSURE PERFORMANCE.

LEAF BASKET. ►

◀ WINTER HOSE STORAGE BAG.

TECHNICAL CHARACTERISTICS:

HOSE LENGTH:	12 x 1 m hose sections
ROBOT DIMENSIONS (L x D x H):	45x43x36 cm
ROBOT WEIGHT:	1 kg 800
FILTERING SURFACE FILTRATION CAPACITY	} Pool filtration system
CLEANING WIDTH:	
MINIMUM FILTER PUMP POWER REQUIREMENT:	3/4 h.p
TRAVELLING SPEED:	5 m/min.

COMES WITH:

- 12 hose sections
- A flow tester
- An automatic flow adjustment valve
- A leaf basket
- A winter hose storage bag
